We are pushing the boundary in quality

Bungee end Connectors:

Strainrite Brianex Bungee Connector is made from highly conductive aluminium, designed to be non chaffing and adjustable.
Strainrite Solcor Bungee Crimp, a tried and tested crimped option.

Strainrite Gate Break Handle.

Made right here in Wellington NZ. Durable and pliable this Gate Break Handle range can withstand being dropped or trampled by stock due to the high performance UV stabilised material.

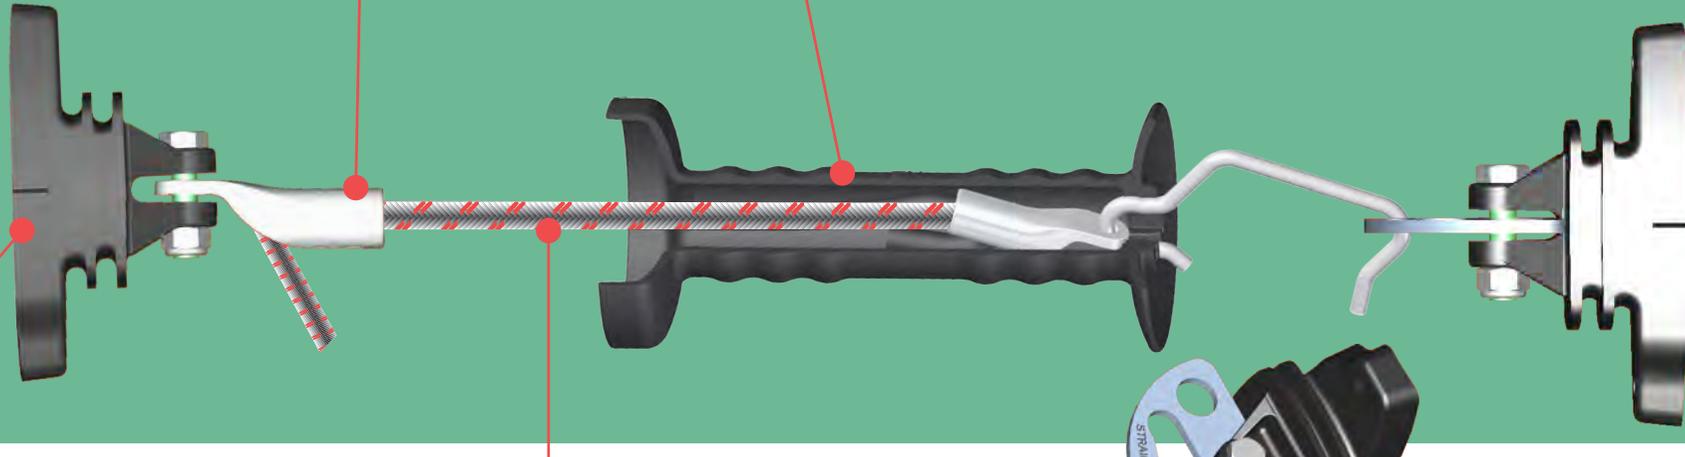

The extended cuff is designed to protect you from electrical shock and the contoured grip made for comfort.

This versatile handle can be used as a spring gate, tape gate, or bungee gate.

This is quality you can handle.

All parts available in kits or seperately

NEW MODEL Joule Shield Heavy Duty

Termination End Insulator - Recently up-spec design with greater strength. independant testing confirms 75% higher insulation performance than other major brands.
Includes stainless steel bolt and nyloc nut

Strainrite Solcor Electrical Bungee Cord.

Superior to all other bungee cords available.

WHY? Unlike traditional bungee cord with multi filament natural rubber cores that perish and breakdown rapidly when exposed to the elements, Strainrite Solcor Bungee has a unique solid core made of specially formulated UV protected rubber. Covered in a tightly braided sheath with 4.0 x 0.25mm stainless steel wires & 1000 denier polyester fabric pre-treated with a UV inhibitor to provide a barrier of protection

Galvanised Activator Plate

Designed with a larger locating ring to hook on with ease.

Go to our Youtube Channel to see Hugh assemble the bungee Gate Break Handle and find us on facebook. Search: Strainrite

WIN 1 of 10 Strainrite Staple Pullers
